

Emergency Medical Services

An Innovative Leader

At Southern Union, our focus is quality education. Our graduates must possess the education and skills to make split-second life and death decisions under a wide variety of adverse conditions. We are committed to graduating EMT-Basics and Paramedics who are competent to provide quality patient care from their first day on the job.

Description of the Profession

Emergency Medical Technicians primarily provide emergency care for patients in an out-of-hospital setting. Duties vary according to the level of training but include performing CPR, patient assessment, airway management, splinting, bandaging, starting IVs, and administration of emergency medications.

Working Conditions

Patient care environment may include working in limited spaces with persons who have AIDS, AIDS-related diseases, Hepatitis, and other communicable diseases; exposure to excessive noise, dust, temperature, hazardous weather, and adverse conditions. Physically demanding and emotionally stressful environment that includes exposure to trauma, severe illness, and death. Work schedules usually include rotating twenty-four hour shifts during weekdays, weekends, and holidays.

Employment Opportunities

Ambulance services, fire departments, and private industry as safety and first-aid personnel. A limited number of opportunities are available as educators, administrators, and consultants.

Educational Opportunities

Baccalaureate degree in EMS may be earned after graduation.
