

Welcome Home to SUSCC!

You've done it! You've been accepted to Southern Union State Community College, and made the decision to start your college experience with us. Now it is time for academic achievement and personal growth and development to begin.

Even though you've heard it in lots of graduation speeches, the next two years will really be a life-enhancing experience for you. The residence hall experience at Southern Union is one you will never forget. You will be one of the first groups of students to live in the new facility. You will learn more than you ever imagined, and will meet many new people and establish lifelong friendships.

It is a privilege to live in a SUSCC residence hall. As such, there are some expectations we have of all residential students.

A SUSCC residential student:

- is committed to academic success
- respects the rights and property of others
- appreciates differences in people and ideas
- demonstrates civility and citizenship by showing concern and support for others
- abides by all federal, state, local, and College laws and regulations

Move in will occur on Sunday August 17, 2008 from 10:00 a.m. to 12:00 noon. The first meal will be served Monday, August 18, 2008.

Best wishes. We can't wait to meet you!

Office of Residence Life

Southern Union State Community College
